

WE KNOW
THE RECIPE
FOR THE BEST BARS

TEKMAR embodies healthy eating combined with a modern and active way of life. Each product associated with the TEKMAR name represents quality, innovation and originality. It is the result of our vision to provide customers a set of nutritional benefits and products, rich in content and taste. After independent testing and evaluation, many TEKMAR's products are considered to be the top products within their segment. We know how to produce the best bar to be offered to our clients with respect and humbleness.

TEKMAR established a specialised Health Centre with the aim to use the knowledge of science and research to develop functional products that embody its core goals - quality, innovation and originality. The development of our new types of bars is carried out by a team of qualified staff, in

collaboration with external specialists from various fields of science and research. These new bars are intended for general retail distribution channels as well as a wide segment of pharmacies, drugstores, sport nutrition, gastronomy and HORECA.

For more than 20 years, TEKMAR has been offering products in line with healthy life-style and healthy food trends to everyone who wants and needs something more.
